Terms of Use

The terms of use for this study can be found at:
http://www.icpsr.umich.edu/icpsrweb/ICPSR/studies/36975/terms

Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #36975

Understanding How Personal Networks Change: Wave 1

1. **BETA Release:** These data are being released in BETA version to facilitate early access to the study for research purposes. This collection has not been fully processed by NACDA or ICPSR at this time; the original materials provided by the principal investigator were minimally processed and converted to other file types for ease of use. As the study is further processed and given enhanced features by ICPSR, users will be able to access the updated versions of the study. Please report any data errors or problems to user support and we will work with you to resolve any data related issues.

2. **Confidentiality/Disclosure Risk:** In order to protect respondent anonymity and disclosure risk, ICPSR has altered string values in the variables **A12B_RELATIVE, B10_OTHER_1_, B10_OTHER_2_,** and **E1B** in Dataset 1, as well as variable **C1A_RELATIVE** in Dataset 2.

3. **Documentation Discrepancies:** The variables **A29**, **A31**, **K4D** are included in the survey instrument, but are not present in the data files. No information was provided.

4. **String Value Labels:** Due to a limitation in Stata, value labels for string variables are suppressed in the Stata version of the data files.

5. **Missing Values:** For more information on the missing value codes in the data, please consult the “General Notes and Advisements” on Page 4 of the P.I. Codebook.

6. **Out of Range Codes:** The following variables contain values that are out of range. No information was provided:

    - The value “678” in **SC003**
    - The value “1983” in **A2C**
    - The value “2007” in **A25**
    - The value "108" in **A32**

7. For additional information on the Understanding How Personal Networks Change study, please visit the UCNets Web site.

Understanding How Personal Networks Change: Wave 1

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

<name> is a choice	-	1	0.1 %
<name>'s sister would help out if she could.	-	1	0.1 %
A Mutual understanding.	-	1	0.1 %
A close family	-	5	0.4 %
A close family and an unspoken support.	-	1	0.1 %
A close family.	-	1	0.1 %
A litle bit of help from relatives	-	1	0.1 %
A logical, mutual understanding that family is important.	-	1	0.1 %
A sister for help	-	1	0.1 %
A tight knit family.	-	1	0.1 %
A very good son	-	1	0.1 %
All of my relatives now live far away; however, we are very close-knit. We spend every holiday together and remain in close contact throughout the year. My extended family is all very close, and we treat each other as we would treat immediate	-	1	0.1 %
Already have	-	1	0.1 %
Always Helping	-	1	0.1 %
Always been there for me, very close always doing nice things for me	-	1	0.1 %
Always ready to help.	-	1	0.1 %
Always supportive	-	1	0.1 %
Always there for me, If I needed something they would take care of.	-	1	0.1 %
As latinos we are supposed to support each other	-	1	0.1 %
Bad relationship with all family members	-	1	0.1 %
Based on the relationship and closeness. If it were such a serious problem they would definitely help.	-	1	0.1 %
Beacause they are family	-	1	0.1 %
Because <name> has been supportive in times of economic trouble. She's been generous.	-	1	0.1 %
Because <name> is such a good woman and sister	-	1	0.1 %
Because I don't have that many living relatives nearby to help.	-	1	0.1 %
Because I have done it for them	-	1	0.1 %
Because I have nbeen in taht situation before and lived with bothe <name>, <name>, <name>	-	1	0.1 %

Value	Label	Unweighted Frequency	%
Because I know the strength of our relationship, it's mutual I can depend on them, count on them and trust them if I need to. They are honorable	-	1	0.1 %
Because I know they would be there for us, they have done that before and there is a special bond.	-	1	0.1 %
Because I take care of them	-	1	0.1 %
Because I've done it for them so I'm sure they would do it for me.	-	1	0.1 %
Because I've seen how my relatives take care of each other and this has happened in the past (uncle died of leukemia).	-	1	0.1 %
Because everyone is spread out.	-	1	0.1 %
Because in the past they offer help when I went into something minor and I didn't need it but they told me if something happened they would give me a hand	-	1	0.1 %
Because it's an obligation for them. My wife's family. She is Japanese so it's cultural, if they didn't help it would be a shameful thing.	-	1	0.1 %
Because it's the <Ethnic> style, you take of your own	-	1	0.1 %
Because my family is small, it's me, mom, dad and my sister. if something happens we help out. we go down to see them	-	1	0.1 %
Because my sister we're very close and she has the means to help.	-	1	0.1 %
Because of being siblings, obligation.	-	1	0.1 %
Because of our close relationships and probably the family obligation or responsiblilty	-	1	0.1 %
Because of the kind of person she is and the kind of relationship we have she's my daughter	-	1	0.1 %
Because that's just what we do. I have helped them out in the past and they would want to reciprocate	-	1	0.1 %
Because thats how we are in our family, we look out for each other and take care of each other.	-	1	0.1 %
Because the we were brought up to help each other	-	1	0.1 %
Because they are blood. My mom actually loaned me money for the legal fees.	-	1	0.1 %
